

Children's Long Term Supports (CLTS)

Several new payment profiles for the Children's Long Term Supports Waivers have been added for CY2006. This will allow Counties to track the Waiver payments made through CARS for each type of funding. The flowchart below identifies each Waiver and the associated CARS profiles.

The estimated MA GPR funding the County has been allocated for the Non Federal Profiles is based on the number and type of slots (autism, crisis or Children's Redesign Pilot) assigned to each County or County Agency as of 8/1/2005. The amount available on each Federal Profile includes the Federal match of the MA GPR for each autism, crisis or Children's Redesign Pilot slot, the Federal portion of estimated costs above the total of the slot revenue earned by the County and/or local match slots.
